28 February 1964

MEMORANDUM FOR THE RECORD

SUBJECT: Transfer of Employees within the United States

Today I received a memorandum from [redacted] which discussed the financial hardships confronting employees who are reassigned domestically. He attached a newspaper clipping which discussed pending legislation which would ease some of these financial burdens. The gist of his memorandum was that the Agency should support the legislation. I talked to [redacted] who agreed that he would support it, however, he said that he would need more than just a casual statement. I telephoned Mr. [redacted] and asked that he provide us with five or six sterilized case studies which John could use in Congress. H. G. said that he would attend to this promptly.

*Legislation now proposed -
No further action, as I see it.
